Introduction

- Whether you are currently receiving Medicare benefits, or will soon be eligible for Medicare, or are helping your parents make decisions about their Medicare coverage, this Guide provides the basic information you need to know about Medicare. It provides an overview of what Medicare covers and what it does not. It also discusses the importance of supplementing your Medicare coverage and describes the Medicare supplemental insurance options offered in Virginia.
- This Guide has been prepared to assist you in finding and purchasing the Medicare supplement insurance policy that is most appropriate for your needs and budget. It includes information provided by insurance companies licensed to sell Medicare supplement insurance in Virginia on or before February 4, 2005. Some insurers elected not to participate in this project and are, therefore, not represented in this Guide.
- Additionally, you should keep in mind that a particular insurer may have discontinued marketing a specific policy by the time you contact them. The premium figures provided in this Guide are intended to give you, the consumer, an idea of the range of premiums normally charged for such policies and should only be used as a general guide. Phone numbers have been provided so that you can contact any company directly to inquire about its Medicare supplement policies. Enclosed with this Guide you will find a rate comparison chart, allowing you to compare the costs of supplemental coverage offered by private insurance companies currently selling Medicare supplement insurance or “Medigap” insurance in Virginia. All of the information provided in the charts on pages 26 - 138 is subject to change.

- In addition to this publication, the Bureau of Insurance makes available to consumers a list of companies that have received approval of policy forms for **Medicare supplement standardized plans** and **Medicare Select** coverage in Virginia. The Bureau also provides a list of approved **Medicare Health Maintenance Organizations in Virginia**, along with a **“Guide to Health Insurance for People with Medicare.”** To obtain a copy of any of these documents, you can write to the address on the inside of the cover of this publication or you may call the State Corporation Commission from anywhere in Virginia toll-free at **1-877-310-6560** (TDD/Voice dial **(804) 371-9206**, Richmond residents dial **371-9092**). You may also visit us on our website at **<http://www.scc.virginia.gov/division/boi>**. **On our website, you may find the updated Medicare supplement rates for the companies included in this publication as they are approved in Virginia.**
- Again, we must emphasize the fact that because a company is “approved” or has approved forms does not guarantee that the company will be actively selling the coverage when you contact them.

Medicare – The Basics

- Medicare is a federal program that provides health insurance for people age 65 or older. It is also available for people with permanent kidney failure and for certain disabled people under age 65. Most American citizens who have paid into Medicare through their employment are eligible for coverage. Your eligibility is determined by the Social Security Administration.

Medicare has two parts: Part A and Part B

- The Original Medicare Plan is the traditional system, run by the federal government, that covers your Part A and Part B services. Medicare pays its share of the bill and you pay the balance.
- **Part A** is commonly known as hospital insurance. It helps pay for inpatient hospital care, inpatient care in a skilled nursing facility, home health care and hospice care. There are, however, definite limits and exclusions to what Medicare covers.
- For most people, there is no monthly premium for Part A coverage.
- **Part B** is commonly known as medical insurance. It helps pay for inpatient and outpatient doctors' fees, medical services and equipment, clinical lab services, as well as physical and occupational therapy and outpatient mental health care.
- Everyone who is determined to be eligible by the Social Security Administration to receive Medicare benefits will pay a monthly premium of \$78.20 in 2005 for Part B. The premium will automatically be taken out of your Social Security (or Railroad Retirement) check each month. Part B also has a \$100 annual deductible and a 20% co-insurance charge for each doctor visit or qualified medical service.

Enrolling in Medicare – Don't Miss the Boat!

- You will enroll in Medicare when you apply for your Social Security retirement income, usually at age 65. If you applied for and are receiving Social Security Retirement income or Railroad Retirement benefits before you turned 65, you are probably already enrolled in Medicare. If you are not sure of your Medicare enrollment status, call your local Social Security office.

- Your enrollment period begins three months before your 65th birthday and ends three months after your birthday month. The federal government advises signing up for Medicare three months before your 65th birthday so that Medicare will be effective on the first day of the month of your birthday.
- If you fail to enroll for Medicare during your 7-month eligibility period, you can enroll between January 1 and March 31 of any year after you become eligible. This is called the General Enrollment period. However, you will have to pay a penalty for late enrollment. The cost of Part B will go up 10% for every 12 months you could have had Part B coverage but did not sign up for it. You will have to pay this extra 10% for the rest of your life.

When to Waive Part B

- Everyone who enrolls in Part A is automatically eligible to be enrolled in Part B as well. If you are over 65, are still working and are covered under an employer's health plan (or are covered under a working spouse's health plan), you can delay enrolling in Medicare Part B coverage. You will not have to pay the Part B monthly premium until you need it. If you want to delay enrolling in Part B, you must contact Social Security at 1-800-772-1213 (TTY at 1-800-325-0778) and tell them you want to waive your right to Part B coverage. Before deciding to waive Part B, find out what your coverage is under your employer's plan. You should ask if there is a dollar limit to the coverage, how much out-of-pocket costs you will have to pay, how long the coverage will last, and if your spouse is included in your coverage.

- If you choose to delay Part B, remember that when you retire or when your job-related insurance coverage ends, you then have 8 months to notify Medicare and sign up for Part B without getting a late enrollment penalty charge added to your premium. If you miss this 8-month Special Enrollment, you will have to wait until the next General Enrollment period. **Once you enroll in Part B, you have six months to purchase Medicare supplemental insurance without medical underwriting.** This means you cannot be denied coverage because of health problems during the 6-month open enrollment period.
- You must be enrolled in Part B if you want to be able to join Original Medicare or get your Medicare benefits from any of the Medicare managed care plans through Health Maintenance Organizations (HMOs). You must also have Part B to purchase Medigap insurance.

Medicare Supplement Open Enrollment for the Disabled Under Age 65

- Under federal law, if you become eligible for Part B benefits before age 65 because of a disability or ESRD (**E**nd **S**tage **R**enal **D**isease - permanent kidney failure) you are guaranteed the Medigap policy of your choice when you reach age 65. During the 6 months after you turn 65, you cannot be refused a Medigap policy because of your disability or for other health reasons. This includes Medigap policies that cover outpatient drugs. Since Medicare counts as creditable coverage, you will not have to wait for coverage of pre-existing conditions unless you have been covered under Medicare for less than 6 months.

Supplementing your Medicare coverage

- Buying supplemental Medicare coverage is not required, but it is highly recommended.
- If you are covered by Original Medicare (as most people are), supplementary coverage is considered necessary.
- In Virginia, there are three ways to supplement your Medicare coverage. You can purchase a Medigap policy from a private insurance company; you can purchase a managed care plan through a Health Maintenance Organization (HMO); or, your most recent employer may offer Medicare supplemental coverage through a retiree health plan. You need only purchase one of these three options. Any of these insurance products should pay most or all of the coinsurance and deductible amounts charged by the Original Medicare Plan. In all of the cases, you are still covered under Medicare. The difference is in who manages the benefits and the billing for you.
- Supplemental insurance is meant to supplement Medicare, not to replace any part of Medicare coverage. Regardless of the policy or plan you choose, you will most likely pay a premium (annual or monthly) for Medicare supplemental insurance, which will vary depending on the amount of coverage you buy. This is in addition to your Part B Medicare premium.

Medicare Supplement Insurance

- Medicare supplement insurance or “Medigap” insurance, is private health insurance designed specifically to supplement Medicare benefits by filling some of the gaps in Medicare coverage. Many of these policies will provide coverage for

Medicare deductibles and coinsurance amounts in addition to paying for many limited health services that are not covered by Medicare. In the past shopping for your Medigap insurance was extremely confusing and difficult because companies offered policies with completely different benefits at a wide range of prices. Since 1992, in Virginia, insurance companies may only sell Medicare supplement insurance in ten standardized plans, designated “A” through “J”. All insurance companies do not sell all ten plans; however, they must all offer plan A. The benefits of all ten plans are identical from company to company, so comparison shopping for price is important.

New Medicare Supplement Insurance High Deductible Options

- A few insurance companies may offer a “high deductible option” for plans **F** and **J**. This option requires you to pay **\$1,730** (effective 1/1/05) out of pocket annually before the plan pays anything. Insurance policies with a high deductible option generally cost less than those with lower deductibles.
- Don’t forget that there are additional deductibles that must be met with plans F and J. With plan J, there is a separate prescription drug deductible of \$250 per year. In addition, plans F and J have a separate foreign travel emergency deductible of \$250 per year.

Medicare Select

- In addition to traditional “Medigap” insurance, a limited number of **“Medicare Select”** policies are available in Virginia. A Medicare Select policy must be one of the ten standardized plans, but you must receive most medical care from providers who have contracted with the Medicare Select issuer. These

policies are generally very affordable because of the restricted provider network. You should review all information about these policies carefully, however, to be sure you understand the provider network limitations and restrictions which may require you to use specific hospitals and doctors. If you do not follow the Medicare Select policy provisions, Medicare will still pay its portion, but the Medicare Select company is not required to pay your hospital deductible or copayments.

Medicare Supplement Insurance Options for the Disabled Under Age 65 (See Chart Pages 134 - 138)

- Medicare supplement policies for the disabled under the age of 65 that are sold by the companies listed in this Guide are **not guaranteed issue**. This means that the company will ask medical questions and may refuse to cover some types of medical conditions. The only exceptions to this are Anthem Blue Cross/Blue Shield, which offers Plan F as guaranteed issue and Blue Cross/Blue Shield of the National Capital Area - Carefirst (GHMSI) offering Plans A, C and F.
- Additionally, some companies may offer Medicare supplement insurance to you if you are a disabled person on Medicare and are currently insured with them. You may wish to check with your present insurance company to see if it will provide you with a Medicare supplement policy.
- Another option for Medicare disabled individuals may be to apply for coverage under a Medicare Health Maintenance Organization (HMO). This type of Medicare managed care plan must accept anyone who applies for coverage, with the

exception of people who have End Stage Renal Disease (permanent kidney failure). However, Medicare managed care plans are available only in limited areas of the state and have restrictions regarding service providers. To find out whether Medicare managed care plans are available in your area, contact the Bureau of Insurance and request a copy of the Medicare HMO list.

HMOs and Medicare Managed Care Plans

- Health Maintenance Organizations (HMOs) also sell Medicare coverage, often referred to as Medicare managed care plans. These plans have contracts with the federal Centers for Medicare and Medicaid Services (CMS) to provide your Medicare benefits. When you enroll in a Medicare managed care plan, you select a doctor from the plan's list of primary care physicians. Your primary care physician is then responsible for coordinating all of your health care needs.
- If you join a Medicare managed care plan, you are still in the Medicare program. This means that you will continue to pay the monthly Part B premium of \$78.20, you will keep your rights and protections, and you still get all your regular Medicare services. You may also get additional benefits, like outpatient prescription drug coverage. Your costs will include a premium for the managed care plan in addition to the monthly Part B premium.
- Some HMO plans cover all health expenses and are similar to having Original Medicare and a Medigap policy. Keep in mind that with HMOs you are generally restricted to a specific network of providers. Remember, if you receive your Medicare benefits through an HMO, you do not need to purchase Medigap insurance.

Before You Join a Managed Care Plan or Medicare HMO, Keep in Mind that:

- Managed care plans are offered by private companies. Each year they can change the extra benefits they offer and how much they charge.
- When a managed care plan signs a contract with Medicare, it agrees to stay for one calendar year. Each year it makes a business decision to stay or leave the Medicare program.
- Doctors can join or leave managed care plans at any time.
- Managed care plans may charge an extra monthly premium, in addition to your monthly Part B premium, but they often offer extra benefits not offered by Original Medicare.

Supplemental Medicare Coverage through a Retirement Plan

- Some people have the option of supplementing their Medicare coverage through an employer's retirement plan, rather than purchasing a Medigap policy or joining a Medicare HMO. If your retiree policy provides unlimited prescription drug benefits, or other benefits not covered by Medicare or the supplemental options covered in this Guide, you should think seriously before dropping the policy for a less expensive choice. In most cases, you will not be able to get the retiree policy back once you have dropped it. Make sure to find out the policy's limitations and if it includes coverage for spouses.

Medicare Supplement Rights and Guarantees

- In addition to the six month open enrollment period described on [page 7](#), the Balanced Budget Act requires that Medicare supplement and Medicare Select standardized plans A, B, C and F be guaranteed issue, without pre-existing conditions, in the following situations:
 - ◆ You have Medicare and an employer group health plan (either primary or secondary to Medicare) that terminates or ceases to provide all such supplemental health benefits. *If your employer plan is secondary to Medicare and you elect to disenroll, you have no guarantee issue rights under the Balanced Budget Act;*
 - ◆ You are insured by a Medicare HMO or a Medicare Select plan and move out of the plan's service area, or the insurer goes out of business, withdraws from the market, has its Medicare contract terminated, or the plan violates its contract provisions or is misrepresented in its marketing;
 - ◆ You are insured by a Medicare supplement plan and the insurer goes out of business, withdraws from the market, or the insurance company or agents misrepresent the policy, and you then are without coverage.
- If you are covered under a Medicare supplement policy and discontinue that policy to enroll in an HMO or Medicare Select plan, you have some specific guarantees. If you decide to return to the traditional Medicare program before the end of the first twelve months of your **first** enrollment in an HMO or

Medicare Select plan, you have the right to return to your Original Medicare supplement policy, if it is still available from that insurer. **If it is not available**, you may select a Medicare supplement plan A, B, C or F, and it will be guaranteed issue. In either case, you would have no pre-existing condition waiting period.

- Lastly, some special guarantees are extended to those persons who enroll in an HMO plan when they first become eligible for Medicare Part A and enroll in Part B at or after age 65. If these individuals disenroll from the HMO within the first 12 months of their managed care enrollment, they are guaranteed to get **any Medicare supplement policy from any Medicare supplement company**. Again, no pre-existing condition waiting period would apply.
- **Note:** With all of the above guarantees, application for a Medicare supplement policy must be made within **63 days** of disenrollment for the guarantees to be valid. Additionally, the company cannot charge more for these policies that are guaranteed issued, or exclude benefits due to health reasons.

Low Income Alternatives to Medicare Supplemental Insurance

- If you cannot afford to purchase Medicare supplemental insurance, there are alternative programs that may help cover your Medicare costs. These programs are:

Medical Assistance (also known as Medicaid)

- Anyone eligible for medical assistance probably does not need to buy Medicare supplemental insurance. The program pays almost all of the health care costs for anyone who is eligible. For more information, contact your local department of social services. If you bought a Medigap policy and then became eligible for medical assistance, the law permits you to suspend your Medigap insurance for 24 months while you are enrolled in the Medical Assistance program. If you do suspend your policy, while it is suspended you do not pay premiums and it will not pay benefits. You can only suspend a Medigap policy for 2 years. At the end of the suspension, you can start it up again without new medical underwriting or pre-existing condition waiting periods. Call your insurance company to find out how to suspend a policy and call your local department of social services to help you with the decision.
- If you lose your eligibility for medical assistance within 24 months, the law permits you to reinstate your supplemental insurance. If you are on medical assistance longer than 24 months, your insurance policy will terminate.

Qualified Medicare Beneficiary and Specified Low-Income Beneficiary Programs

- Besides the standard Medical Assistance program, there are other programs available through your local department of social services that are designed specifically to help certain low-income Medicare beneficiaries meet their health care costs. These are the [Qualified Medicare Beneficiary program \(QMB\)](#); the [Specified Low-Income Medicare Beneficiary program \(SLMB\)](#); and the [Qualified Individual](#)

programs (QI-1 and QI-2). While these programs do not necessarily eliminate the need for private insurance to supplement your Medicare benefits, they could save you hundreds of dollars each year in health care costs if you qualify for assistance.

- The **QMB** program pays Medicare's premiums, deductibles, and coinsurance amounts for certain elderly and disabled persons who are entitled to Medicare Part A, whose annual income is at or below the national poverty level, and whose savings and other resources are very limited. The **QMB** program offers the same coverage you would get in a Medigap policy, plus it pays your Part B premium. **Reminder: A person may have to use Medicaid participating providers for all coinsurance amounts to be paid.**
- The **SLMB** program is for persons entitled to Medicare Part A whose incomes are slightly higher than the national poverty level. Your income cannot exceed the national poverty level by more than 20 percent. If you qualify for assistance under the **SLMB** program, the state will pay your Medicare Part B premium. You will be responsible for Medicare's deductibles, coinsurance, and other related charges.
- In addition, Medical Assistance programs require states to pay for part of Medicare's Part B premium for certain groups of low-income Medicare beneficiaries. This is the Qualified Individual program, which has two categories (QI-1 and QI-2) based on level of income. Contact your local department of social services or Virginia Insurance Counseling and Assistance Program (VICAP) at 1-800-552-3402 for more information.

Need help paying for prescription drugs?

- Medicare does not pay for prescriptions. If you cannot afford to purchase Medigap plans H, I or J that provide a limited amount

of prescription coverage, or if you cannot afford prescribed medications, you may be eligible for prescription drug assistance. The web site listed below will provide you with various prescription drug programs that are available.

The Ten Standardized Medicare Supplement Insurance Benefit Plans

Medicare supplement insurance can be sold in only ten standard plans plus two high deductible plans. This chart shows the benefits included in each plan. Every company must make available Plan “A”.

Basic Benefits: Included in All Plans.

- **Hospitalization:** Part A coinsurance plus coverage for 365 additional days after Medicare benefits end.
- **Medical Expenses:** Part B coinsurance (generally 20% of Medicare-approved expenses).
- **Blood:** First 3 pints of blood each year.

+ Plans F and J also have an option called a high deductible plan F and a high deductible plan J. These high deductible plans pay the same or offer the same benefits as Plans F and J after one has paid a calendar year deductible. Benefits from high deductible plans F and J will not begin until out-of-pocket expenses exceed the deductibles. Out-of-pocket expenses for this deductible are expenses that would ordinarily be paid by the policy. These expenses include the Medicare deductibles for Part A and Part B, but does not include, in plan J, the plan's separate prescription drug deductible or, in Plans F and J, the plan's separate foreign travel emergency deductible.

Virginia Medicare Supplement Policies How to Read the Premium Charts

- The following information is provided for each company:
- **Insurance Company Name/Telephone Number/Website Address:**
 - ✦ Information included in this Guide was compiled through a survey of all companies licensed to sell Medicare supplement in Virginia. If a company is not listed in this Guide, it may not be authorized to sell insurance in Virginia or did not respond to our survey. The telephone number should be used to obtain information from the company about its Medicare supplement policies. The website address is also included for additional information about each company.
- **Policy Fee:**
 - ✦ A policy fee is a one-time amount, in addition to the premium, added to a policy at issue. It usually is intended to cover some of the insurer's administrative costs in issuing the policy.

■ Area:

- ✦ **"A"** means the company does not differentiate rates by area and charges the same premium in all parts of Virginia.
- ✦ **"Z"** means the premiums can differ by zip code or area of the state in which you live. For those insurers whose premiums vary by zip code, premium figures shown are for Richmond residents.

■ Prem Type (Premium Type):

- ✦ All health insurers must choose a method to “rate” your Medicare supplement premiums. The “rating” method they choose determines your age, if any, that will be used in calculating your initial premium and indicates whether your premium will change each year due to a change in your age. Three different age categories are represented in the comparison tables. When deciding which premium type best suits your needs, you should carefully consider the potential differences in premiums over the long term of the policy rather than simply comparing initial costs.
- ✦ **"AA"** (Attained Age) Premiums are based on the covered individual’s age at the time of application of the policy or certificate. Premiums will increase as he or she ages, regardless of his or her age when he or she first enrolled.
- ✦ **"IA"** (Issue Age) Premiums are based upon the covered individual’s age at the time of purchase of the policy or certificate. Premiums do not increase due to increase in age.

- ✦ **"COMM"** (Community) means the premium will be the same for all ages in the same geographical area.

- **Guar. Issue (Guaranteed Issue):**

- ✦ **"Y"** means the company cannot reject you for health reasons.
